ABSTRACT

The report provides data on adult and continuing education enrollments for Iowa's 15 area schools and the five public school districts that operate some adult education programs independently of the area schools. Covering years 1967-75, enrollment figures are taken from registration and do not represent unduplicated head count. Following an introductory table listing total enrollments since 1967, tables are arranged under the following categories: (1) enrollments by major program categories, presenting three tables listing enrollment, head count, and full-time equivalent enrollment (FTEE); (2) adult basic education and high school completion, with six tables providing data on enrollment and State/Federal expenditures, participant progress, characteristics, and high school equivalency certificates; (3) adult college parallel, with one table listing enrollments in area schools; (4) career supplementary education, with five tables listing enrollments by occupational area, career education offerings, and apprenticeship program enrollments; (5) five public school districts, with one table listing adult education enrollments; and (6) a summary table listing the composite enrollment of adult and continuing education. # INTRODUCTION

The purpose of this report is to provide statistical data on adult and continuing education enrollments in Iowa's fifteen area schools and the five public school districts that operate some adult education programs independently of the area schools. All enrollments reported on the following pages are registrations. Consequently, enrollments do not represent unduplicated headcount since some students register for more than one class.

Several charts reflect full-time equivalent enrollments (FTEE). In adult education a FTEE is equal to 540 reimbursable hours. A reimbursable hour means: (1) one contact hour of lecture in an approved course in adult college parallel; (2) two contact hours of laboratory in an approved course in adult college parallel; and (3) two contact hours in general adult and continuing education programs that are eligible for state general aid, except adult basic education and high school completion programs which are reimbursed on a one contact hour basis.

The Adult Education Programs Unit of the Department of Public Instruction provides overall leadership for the planning and operation of the programs in adult basic education, adult high school diploma and high school equivalency, general adult and continuing, and career supplementary education. The Adult Education Programs Unit provides leadership to educational institutions in their efforts to answer the aspirations of adults who want to learn new and more remunerative skills; seek a higher degree of culture; want a better understanding of their social, physical and economic environment; desire to fulfill the role of responsible citizens in a nation and world having complex problems; and want enrichment in their steadily increasing amounts of leisure time.

## INTERPRETATIVE SUMMARY OF TABLE 2

Table 2 outlines headcount and full-time equivalent by major program categories as reported to the Department of Public Instruction by Iowa's area schools.

The adult basic education program reflects enrollments where federal adult basic education funds were utilized. The instructional content would include grade level 0-8 instruction for adults as well as high school equivalency preparation (grade level 9-12). An 8 percent growth occurred in headcount in fiscal year 1975 over fiscal year 1974 with a 14 percent growth shown in FTEE for the same period.

The high school completion program includes adult registrations for adult high school diploma programs in Iowa's area schools as well as high school equivalency preparation programs not funded with federal adult basic education funds.

The program entitled "Course for Drinking Drivers" was mandated by the Iowa Legislature in 1973 for adults who were convicted of OMVUI. The courts could require those convicted to attend this 12-hour program.

The continuing eligible for state general aid includes general interest offerings such as safety and driver education, foreign languages, home improvement, economics, business and health.

The career supplementary education program includes those offerings designed to provide occupational training to employed adults. This program increased from 84,827 (headcount) in fiscal year 1974 to 114,234 in fiscal year 1975, or an increase of 35 percent. Included as a part of these enrollments are the apprenticeship programs.

The agriculture production program for veterans is a full-time program consisting of 440 hours of instruction for veterans who are currently engaged in agricultural production. It should be noted that approximately one half the schools offer the program in the Career Education Division. Therefore, those enrollments would not be reflected in Table II. Those shown in Table II are those administered by the Adult Education Division in the respective schools.

The Part F 1/3 Consumer Education program provides disadvantaged and low-income adults educational opportunities in consumerism and homemaking. This program is funded by the DPI with vocational funds to selected area schools.

The Special Needs category includes offerings for disadvantaged and handicapped adults through the use career funds provided the Adult Education Divisions of the area schools from the DPI.

The categories entitled Nursing Assistance Aide, Truck Driver, Key Punch, and other preparatory include career preparatory training of more than 120 contact hours for adults.

The category listed Function IV includes programs that have direct costs fully funded and, therefore, are not eligible for state general aid.

The adult college parallel program includes college transfer offerings typically offered in late afternoon and evenings usually at sites outside the campus. Enrollments listed in this category indicate the Adult Education Division administered the programs. Schools that do not have enrollments shown could administer the program through the College Parallel Division, and, therefore, those enrollments would not be reflected in this booklet.

The total enrollment column reflects a total headcount of all programs administered by adult education divisions in Iowa's area schools of 312,337 and a FTEE of 10,703.45. The headcount represents an increase over fiscal year 1974 of approximately 18 percent.

# FIVE PUBLIC SCHOOL DISTRICT ENROLLMENTS

TABLE 17

ADULT EDUCATION ENROLLMENTS
IN FIVE PUBLIC SCHOOL DISTRICTS

There are five public school districts that offer various adult education programs independently of the area school program. These programs they normally offer independently of the area schools include general interest, adult high school diploma, and career supplementary education programs. Adult basic education students served by the school would not be shown as they are reported through respective area schools. A breakdown of these enrollments (headcount) is shown in Table 17.
